No 664/178

(3)

Kolar District
Deputy Commissioner's Office
Dated, Kolar, the 12th August 1898.

To

The Secretary to the Government
of Mysore,
General and Revenue Departments.

Sir,

I have the honor to report that Cholera has broken out in the Mopla lines on the Ooregaum mines. A few fatal cases have already occurred and daily attacks are reported.

2. Surgeon Lieutenant-Colonel Benson Senior Surgeon and Sanitary Commissioner Doctor O'donnell, Chief Medical Officer of the Mines and myself inspected the locality yesterday afternoon and every possible precaution has been taken to check the spread of the disease.

3. What I wish particularly to bring

(1)

(4)

to the notice of Government in this Connection is our utter un-preparedness to cope with the outbreak of the epidemic on any large scale. We have but one small cholera shed and a tiny Police Shed both of Corrugated iron, by means of a cholera Hospital. The immediate Construction of the following sheds is absolutely necessary.

(1) A Shed for female patients.

(2) A Shed for the accommodation of the Hospital Assistant and for locating the Dispensary.

(3) A Shed for a Head Constable and four Policemen.

(4) Cooking sheds for the Hospital Assistant and the Police

(5) Cooking Shed for the patients

(6) Latrines.

(11)

The present Police Shed is utterly unsuitable and may, as personally

suggested by the Senior Surgeon, (2)
be used as a dead-house.

4. The Senior Surgeon concurs with me in considering that the above Sheds are indispensably necessary and at his request I have authorized Mr. Hume Dwight to start the work at once and send in estimates for submission to Government for sanction. The Senior Surgeon suggested that the roofing of the Sheds put up for the Hospital Assistant and the Police should be a tiled one. This will be attended to.

5. The above Sheds may also be made available for use as Plague Sheds, should an emergency arise.

6. A proper staff to be in charge of the cholera Hospital is also required. The Hospital Assistant attached to the Gold Fields Dispensary, besides living so far away, has his

(3) [illegible]

his hands (6) quite full with
dispensary and other work.
As a case in point, I may men-
-tion that a Moplah of the Coro-
-mandel mine was picked up
on the night of the 9th instant
under a bush in a dying state
and taken to our Cholera Shed
where he died of Cholera shortly
after. The man appears to have
had no proper attendance and
proper precautions do not appear
to have been taken for disinfecting
the body before burying it. I men-
tion this simply to show that we
have no establishment to deal
with Cases of this sort and that
it is necessary to organize at once
a regular Epidemic disease Hospital
with suitable Staff and appliances.

7 A whole-time Sanitary Officer
is required, who will report
everything, see that patients
and dead bodies are attended

(4) Issue
a/(3)

to and carry out orders promptly
under the directions of the Special
Magistrate.

8. The two Sanitary Overseers
now on the Fields have enough
work to do in looking to the
sanitation and Conservancy
of the Government blocks and
villages of the Gold Fields and
cannot be charged with the
responsible functions of a
Sanitary Officer

9. An Hospital Assistant will
be required for the charge of
the Cholera Sheds, also a ward
Cooly, a Cook and 2 Ayahs. A
Police guard of at least 4 men
in charge of a Head Constable
is necessary This Police Establish-
-ment will have to be sanctioned
as an addition to the present
staff which is barely sufficient
for the Police requirements of the
Fields. The Police guard now applied
for

3/

(8)

for may also be utilized in performing house-to-house inspection in Dorcgaum and other villages, guarding water supplies &c. when not employed in guarding the Cholera sheds during the prevalence of the epidemic.

10. It is necessary to open an additional dispensary in the Dorcgaum village. The Hospital Assistant who may be placed in charge of this Dispensary may also look after the epidemic disease Hospital, the services of a special Hospital Assistant being obtained whenever necessary to deal with the outbreak of Cholera or other disease in an epidemic form.

(7)
Same as (3) above

11 It is necessary that the special Magistrate should be placed in funds to meet expenses, such as grave-diggers, disinfectants Spirits, Medicines, food, ambulance

and bedding. (7) For this purpose I would recommend a per-manent advance of Rupees 100 being placed at the dis-posal of the Special Magistrate (8) This will enable him to deal promptly and efficiently with cases of cholera or plague.

12. I beg that speedy orders may be passed on this reference.

I have the honor to be,

Sir,

Your most obedient Servant,

W. M. Hammond

READ—

Letter No. 664—178, dated 12th August 1898, from the Deputy Commissioner, Kolar District.

I have the honor to report that cholera has broken out in the Moplah lines on the Ooregum Mine. A few fatal cases have already occurred and daily attacks are reported.

2. Surgeon Lieutenant-Colonel Benson, Senior Surgeon and Sanitary Commissioner, Doctor O'Donnell, Chief Medical Officer of the Mines and myself inspected the locality yesterday afternoon and every possible precaution has been taken to check the spread of the disease.

3. What I wish particularly to bring to the notice of Government in this connection is our utter unpreparedness to cope with the out-break of the epidemic on any large scale. We have but one small cholera shed and a tiny Police shed, both of corrugated iron, by way of a cholera hospital. The immediate construction of the following sheds is absolutely necessary:—

(1) A shed for female patients.
(2) A shed for the accommodation of the Hospital Assistant and for locating the dispensary.
(3) A shed for a Head Constable and four Policemen.
(4) Cooking sheds for the Hospital Assistant and the Police.
(5) Cooking shed for the patients.
(6) Latrines.

The present Police shed is utterly unsuitable and may, as personally suggested by the Senior Surgeon, be used as a dead house.

4. The Senior Surgeon concurs with me in considering that the above sheds are indispensably necessary and at his request I have authorized Mr. Hume Wright to start the work at once and send in estimates for submission to Government for sanction. The Senior Surgeon suggested that the roofing of the sheds put up for the Hospital Assistant and the Police should be a tiled one. This will be attended to.

5. The above sheds may also be made available for use as Plague sheds, should an emergency arise.

6. A proper staff to be in charge of the cholera hospital is also required. The Hospital Assistant attached to the Gold Fields dispensary, besides living so far away, has his hands quite full with dispensary and other work. As a case in point, I may mention that a Moplah of the Coromandel Mine was picked up on the night of the 9th instant under a bush in a dying state and taken to our cholera shed, where he died of cholera shortly after. The man appears to have had no proper attendance and proper precautions do not appear to have been taken for disinfecting the body before burying it. I mention this simply to show that we have no establishment to deal with cases of this sort and that it is necessary to organize at once a regular epidemic disease hospital with suitable staff and appliances.

7. A whole-time Sanitary Officer is required, who will report everything, see that patients and dead bodies are attended to and carry out orders promptly under the directions of the Special Magistrate.

8. The two Sanitary Overseers now on the fields have enough work to do in looking to the sanitation and conservancy of the Government blocks and villages of the Gold Fields and cannot be charged with the responsible functions of a Sanitary officer.

An Hospital Assistant will be required for the charge of the cholera sheds, also a ward cooly, a cook and two totis. A Police guard of at least four men in charge of a Head Constable is necessary. This Police establishment will have to be sanctioned as an addition to the present staff, which is barely sufficient for the Police requirements of the fields. The Police guard now applied for may also be utilized in performing house to house inspection in Ooregum and other villages, guarding water-supples, &c., when not employed in guarding the cholera sheds during the prevalence of the epidemic.

10. It is necessary to open an additional dispensary in the Ooregum village. The Hospital Assistant, who may be placed in charge of this dispensary may also look after the epidemic disease hospital, the services of a special Hospital Assistant being obtained whenever necessary to deal with the out-break of cholera or other disease in an epidemic form.

11. It is necessary that the Special Magistrate should be placed in funds to meet expenses, such as grave-diggers, disinfectants, spirits, medicines, food, ambulance and bedding. For this purpose, I would recommend a permanent advance of Rs. 100 being placed at the disposal of the Special Magistrate. This will enable him to deal promptly and efficiently with cases of cholera or plague.

12. I beg that speedy orders may be passed on this reference.

No. 2498-502—Mis. 5-97, dated Bangalore, 23rd August 1898.

Order thereon.—Government observe that the locality in the Gold Fields, where cholera has broken out has been visited by the Deputy Commissioner, the Senior Surgeon and the Chief Medical officer of the Mines, and that every possible precaution has been taken to check the spread of the disease.

2. The action taken by the Deputy Commissioner in anticipation of sanction for the immediate construction of the sheds specified in the margin is approved. The submission of the estimates for these sheds should be expedited.

(1) A shed for female patients.
(2) A shed for the accommodation of the Hospital Assistant and for locating the dispensary.
(3) A shed for a Head Constable and four Policemen.
(4) Cooking sheds for the Hospital Assistant and the Police.
(5) Cooking shed for the patients.
(6) Latrines.

3. The Deputy Commissioner should have at once placed himself in communication with the Senior Surgeon in regard to the suggestions contained in paras 6, 7, 9, (first part) and 10 of his letter with a view to the submission of definite proposals for the consideration and orders of Government. Copies of the said paras will, however, be referred to the Senior Surgeon for favor of very early expression of his opinion and for such immediate action as the exigencies of the case may require.

4. The Inspector General of Police is requested to depute a Police guard of four men under a Head Constable for duty under the Special Magistrate during the period of the prevalence of cholera. This application should have been made by the Deputy Commissioner to the Inspector General.

5. The Comptroller is requested to arrange for a permanent advance of Rs. 100 being placed immediately at the disposal of the Special Magistrate, Kolar Gold Fields, to meet the miscellaneous expenses connected with cholera or other epidemic disease.

(a)

General, dated 23rd August 1898.

6. The Government desire to have further information on the following points in regard to the death of the Moplah of the Coromandel Mine referred to in para 6 of the Deputy Commissioner's letter:—

(*a*) when he was last seen alive working in the Mine?

(*b*) how far the bush where he was picked up is from the Mine or his house? and

(*c*) whether prior to his death he has visited any place in which cholera prevailed or had come in contact with persons who were sick of cholera?

Bangalore.

Sir,

I have the honor to acknowledge receipt of the Pro-ceedings of Government and order thereon No 2498-502 mis 597 dated 23rd August 1898

S No 5

In para 3 of the Proceedings the Govern-ment say that the Deputy Commissioner should have palced himself in communication with the Senior Surgeon in regard to -- suggestions made in paras 6.7.9.(first part) and IO of his letter.

In reply I write to say that the suggestions contained in those paras were the result of our visitto the Gold Fields, and that, but for theout-break of Plague the day after my return I had intended addressing Govern-ment on these very points.

With regard to para 6, I think it is quite time that Government came to some definite conlusion as to the needs of the Kolar Gold Fields.- Out- break after out-break of cholera occurs and yet no definite actionhas been taken; and in a place like the Gold Fields, I consider that a permanentEpidemic disease Hospital is absolutely necessary with a fixed Establishment and appliances, that is, disinfecting apparatus &c.

With a man like Mr Hume Wrigh as Special Magistrate, one who spares no pains in workin after sanita-tion , I am of opinion that a Hospital as asked for would

(31)

be well looked after.

At my visit to Oregam with Mr Hume Wright some two months back, I inspected with him the Oregam illage and I then expressed it as my opinion that a certi-ficated Sanitary Inspector was esse tially necessary. Mr Hume Wright pointed out to me one of the Sanitary Overseers who he said did excellent work; the man ha d passed his Matriculation and so I recommended that Government should be asked to sanction his being sent to Madras to take the necessary course, and I think this has been done. This man might well be appointed whole time Sanitary officer when he passes his examination; and if placed under the orders of the Special Magistrate, could easily attend to the sani-tation of Oregam and other villages , and the Cholera Camp. I do not think a whole time Hospital Assistant is required for charge of the Camp; as the Hospital Assistant in charge of the proposed L.F Dispensary could, until an extra hand is sent, look after any cases of Cholera i the Epidemic Hos-pital.

I quite agree that the opening of a L F. Dispensary at Oregam is advisable and if Govt. approve of the suggestion, I shall arrange to depute a H. Assistant. (3)

I have the honor to be

Dear Dr Benson

Please refer to your letter
No 867 of the 2nd instant,
in para 4 of which you say
that you consider "a permanent
Epidemic Hospital Disease
Hospital is absolutely necessary
with a fixed Estab and
appliances, that is disinfecting
apparatus &c" I have no idea
whether this is a small ordinary
project or one requiring a
large expenditure. Please
drop me a line as to whether
this Hospital can be opened
at once and what the
Estab and appliances
required are likely to cost
Do you propose sending
up detailed proposals

build 65-98-15

regarding this Hospital
or do you wish orders to
be passed at once?

Believe me
Yours Sincerely
Sd/ C. S.

Kolar District
Deputy Commissioner's Office,
Dated, Camp Bowringpet, the 9th September 1898.
10th

To

The Secretary to the Government of Mysore,
Revenue and General Departments.

Sir,

With reference to your letter of the 8th September 1898 enquiring why I raised objection to the Cholera Sheds being raised at the Kolar Gold Fields, I beg to submit that I am incapable of raising any such objection. All that took place is this:— The late Deputy Commissioner reported to Government that he had, in anticipation of sanction, ordered the Sheds to be put up. Then, he sent estimates to the Senior Surgeon and reported to Government that as the amount had swollen to a large sum, he had, on second thoughts, preferred to wait, till sanction was received. Upon this the Government requested the Senior Surgeon to hasten the matter and sent me a copy of the order, thereby indicating that the late Deputy Commissioner's proposal to wait till the receipt of sanction had been approved. When the Special Magistrate asked if he was to go on with the work, I intimated the above to him. Subsequently, I got a telegram from you to go on with the work and the Special Magistrate was immediately requested to put the work in hand at once.

From mis 692 in the file — (S. 987)

I have the honor to be,
Sir,
Your most obedient Servant,
(S. 984)
Deputy Commissioner, Kolar District.
